

The world's largest independent renewable energy company

RES has been at the forefront of wind energy development for over 40 years and delivered more than 24GW of renewable energy projects worldwide. We employ more than 4,500 passionate people across the globe and are active in 24 countries, working across onshore and offshore wind, solar, energy storage, green hydrogen, transmission and distribution.

RES in Northern Ireland

RES has been playing a pivotal role in providing Northern Ireland with renewable energy since the early 1990s. From our office in Larne, Co. Antrim we have a team of over 20 working across a range of disciplines. In Northern Ireland, RES has developed and/or built thirty-one wind farms equating to over 500MW.

Sustainability lies at the core of our business activity and values, and we have been leading efforts to create a future where everyone has access to affordable zero carbon energy. By listening, discussing, and working together, we can build clean energy project proposals that power positive change for everyone.

Find out more at res-group.com

Working together with businesses based in Northern Ireland our projects contribute to the local economy and utilise our home-grown energy sources.

With the urgent need to escalate decarbonisation, RES remains committed to being part of Northern Ireland's energy future and business growth, through maximising contributions from renewable energy.
